

Join our Data Practice Program at NN!

This program is dedicated to Bachelor's degree students from the Faculty of Cybernetics, Statistics and Economic Informatics at the Bucharest University of Economic Studies (ASE).

We're NN Romania, a trusted leader in life insurance and private pensions, committed to helping people protect what matters most and build a confident financial future. But NN is more than a financial services company - people come first.

At NN, we believe in **putting value in change**, especially the kind that helps you grow. A new skill, a fresh perspective, a first real challenge: they all start when you dare to take one step further.

In the same spirit, AI is embedded in the way we evolve as an organization. Integrating AI capabilities into our roles comes naturally, as part of the transformation that enables better decisions, more efficient processes, and an improved customer experience.

We're on the hunt for ambitious and motivated students ready to dive into exciting opportunities across **Data&AI Department**. If you're eager to learn and grow, **this is your chance to shine!** ✨

NN's practice program is your chance to step out of the classroom and into real business challenges!
